

## YOUR BREWING, DISTILLING & PACKAGING PARTNER

FB\*PROPAK's brewing (formerly AEB – Australian Engineered Brewing), distilling and packaging arm has a deep history in the micro brewing Industry. With a great number of micro breweries operating successfully, the FB\*PROPAK team is recognised as one of the Industry's most experienced, capable of servicing your every requirement.

### Equipment

We offer an extensive range of equipment, including:

- Brew houses
- Distilleries
- Fermenters
- Filters & pumps
- Beer specific centrifuges
- Automatic keg washing systems
- Automatic filling systems
- Bottling & packaging

We are the exclusive Australian and New Zealand distributor of PSS, and agents for Della Toffola beer filtration systems, AVE and FRAMAX filling, bottling and packaging systems. We also offer an entry level range of micro breweries.

Solutions span from single unit equipment to complete turnkey systems. We are committed to delivering 'best technology at best price' solutions. Without compromise on quality, we provide a high level of local support and capabilities.

## Services

Understanding that our clients operate in a competitive environment, we offer a comprehensive range of services, including:

- Consultation
- Installation
- Retrofitting
- Maintenance
- Project Management
- Commissioning
- Training
- After Sales Servicing

Our experienced team can re-model, design, re-locate and integrate existing systems with new models.

With over 30 specific beer plants commissioned, we are best placed to work with your team in finding the optimum and best price solution.

## **Our newest member: Deo Lule**

FB\*PROPAK is pleased to introduce to you Deo Lule, your new Territory Manager and first point of contact for all things brewing, distilling and packaging.

Deo is a qualified Master brewer with a MSc in Brewing & Distilling from Heriot Watt University (Scotland) and an MBA from UWA in Perth. Deo brings over 20 years experience in the brewing and broader food processing industry, with previous engagements at Lord Nelson Brewery Hotel, Diageo and the Indian Ocean Brewing Co to name a few.

With an excellent understanding of your needs, Deo looks forward to sharing his expertise and being of service to you. Deo can be reached on mobile 0410 459 971.

We have worked with many prestigious breweries including: Bluetongue Brewery, Mildura Brewery, Matilda Bay Brewery, Mountain Goat Brewery, Bootleg Brewery, Colonial Brewery, Pub With No Beer, Fishrock Brewery, Moorilla Brewery, Holgate Brewery and most recently, The Flying Horse Brewery.

## **FEATURED SUPPLIER: PSS**

PSS SVIDNIK, a.s., is a world leader in the design, development and manufacture of high quality brewing and processing equipment. The privately owned company implemented a quality management system conforming to STN EN ISO 9001:2001 in 2004.

Established in 1974 with over 200 skilled staff, PSS equipment has been installed and is successfully operated in many breweries, including Matilda Bay Garage and Moorilla Brewery. PSS is exclusively distributed in Australia and New Zealand by FB\*PROPAK. For further information on PSS, visit [www.pss-svidnik.sk](http://www.pss-svidnik.sk)

## BLUETONGUE BREWERY

Bluetongue Brewery recently updated their brew house from a 2 vessel 25HL to a new 4 vessel 50HL system. The 4 vessel system allows Bluetongue to push more brews per day through the plant, giving them economies of scale and greater efficiency, whilst maintaining consistent quality and throughput.

In addition to the new brew house, Bluetongue Brewery also upgraded their complete fermentation cellar with 6 x 100HL PSS fermenters, 3 x 200HL fermenters from a local Newcastle fabricator, and 6 x 100HL storage tanks. The original 24HL plant was supplied and commissioned in late 2003, and has since evolved to be one of Australia's larger micro breweries processing around 2 million litres of beer.

### About Bluetongue Brewery

Bluetongue Brewery was founded in November 2003 by four Hunter based entrepreneurs who wanted to create premium Australian beer with the stamp of their local region. For further information about Bluetongue Brewery visit [www.bluetongue.com.au](http://www.bluetongue.com.au)

## THE FLYING HORSE BAR & BREWERY

After being in development for nearly four years, The Flying Horse Bar and Brewery in Warrnambool Victoria, opened in July 2008. The boutique brewery installation was a turnkey solution - we supplied a skid mounted 10HL Pub Brew system with mash/lauter, HLT combo vessel and kettle/whirlpool vessel.

The installation included a glycol chilling unit, steam boiler, grain mill with auger and keg washing/filling unit, three 1000L FV and two 1200L Bright beer tanks. The stainless steel, steam powered and manually operated brewery is a classic single infusion design, which roughly translated means that it can produce over 2,500 pots of beer.

### About The Flying Horse Bar & Brewery

The Flying Horse Brewery site was previously a service station and caravan park named "The Flying Horse Inn", which featured a red Pegasus horse. Winner of the prestigious Champion Porter trophy and Gold Medal at the 2009 Australian International Beer Awards, more information can be found at [www.theflyinghorse.com.au](http://www.theflyinghorse.com.au)
