ABOUT US

We are in a unique position to leverage the resources and 'know-how' captured by a specialised team with over 40 years of experience in providing brewing and packaging equipment, supplies and technology solutions.

Our highly efficient team ensure seamless project delivery with expert backup and ongoing support. FB*PROPAK's process engineering knowledge and strategic partnerships with world leading equipment manufacturers and suppliers, enable us to provide unique and optimum outcomes for our brewing clients.

BREWHOUSES

Brewhouses designed and delivered specifically with clients' requirements in mind. We source and custom engineer some of the finest brewhouses from Europe and North America to deliver outstanding results for businesses and brewers.

FERMENTATION

We can supply various sized fermentation options from the budget conscious to macro brewers, and all with quality fabrication.

SUPPORT

FB*PROPAK is proud to offer a local support network of technicians, engineers and electricians for all clients. We have experienced human resources available across Australia, New Zealand and Asia, with a head office based in Victoria.
